

modern web **design** and **development**
for small business

offering...

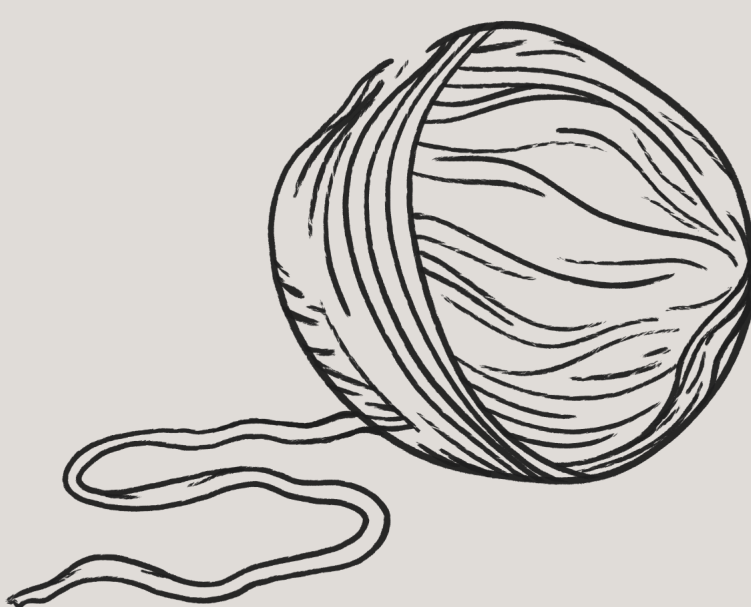

- design

hosting
- development

maintenance
- seo

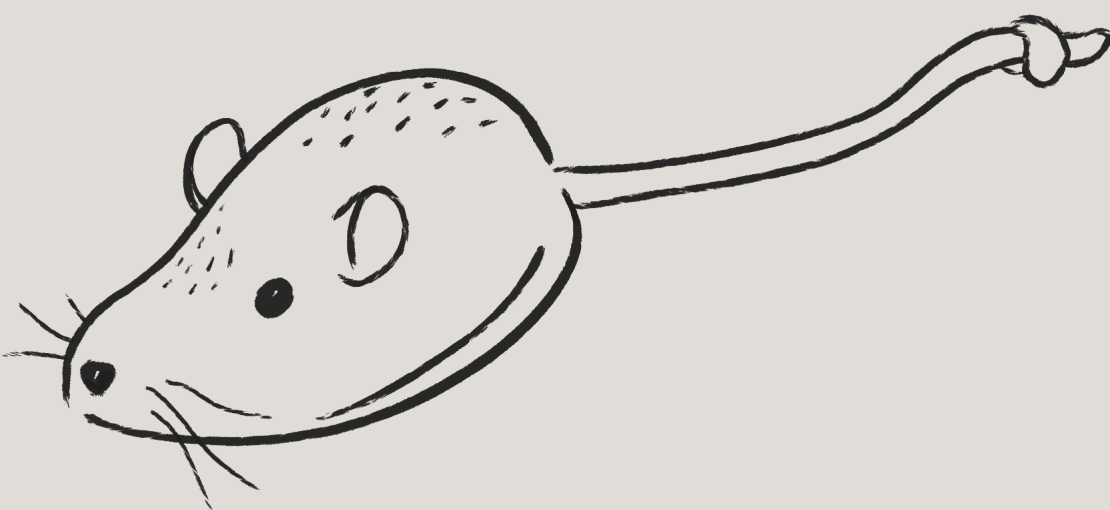

support

we understand that not every website should be built the same.
this is why we specialize in a variety of different technologies;
to be able to provide the most optimal solution for your business.

want Wordpress so you can easily manage content or
products? we’ve built a great deal of Wordpress sites
& would love to create a product that allows you to
control your business online.

free quote

free quote

only need a small site to get the word out? maybe a
simple contact form to generate leads? we’ve created
a method of development for these use cases that is
quick to build and affordable to maintain & host.

say howdy! - we'd love to chat about how we can help you accomplish your goals online

our values are...

security

we know that online security is safety in the digital age, so your security is our top priority. we are always working to keep our security practices up-to-date and consistent with

communication & transparency

at Black Cat Studio, we prioritize building client relationships that are based on clear communication & complete transparency. we will work diligently to make sure you have all the information you need, every step of the way, all explained using non-technical language.

diversity

when working with individuals outside of BCS, we always prioritize providing opportunities to marginalized people - we know that having a diverse workplace that values all voices equally benefits us all. we are also dedicated to working with individuals who are part of the communities we’re creating for because no one understands the needs of a community better than the people in that community. if you’re a creative professional from a marginalized community, we’d love to hear from you! hit us up here.

equity

we aim to make our services available to all people, specifically populations that are often excluded from receiving high-quality creative work. we offer a sliding scale option for business owners that are from the LTGTQIA+ community, Native communities, all communities of color, and/or anyone with a disability. if you belong to any of these communities, we would love to work with you to build a product that meets your needs without exceeding your means.
